Legislative Action

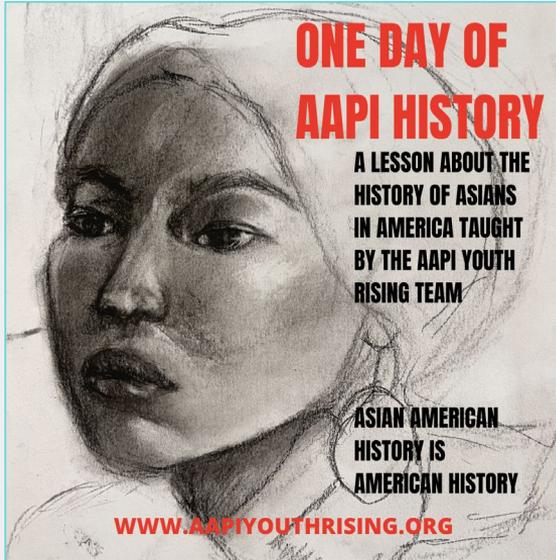

- AB 101, CA Ethnic Studies Mandate recently passed into law. We wrote letters, phone banked and joined student coalitions to support the bill.
- AAPI History Mandates. Currently 10 states are working towards AAPI History mandates following Illinois. We have partnered with national groups who are spearheading these efforts across the country.
- We join local Bay Area school board discussions around DEI initiatives and diverse curriculum planning.

The screenshot shows the TOHC website with a navigation bar (Home, About Us, Get Involved, Our Partners, FAQs) and a section titled "OUR PARTNERS." Below the title, there is a paragraph: "If you are an organization interested in collaborating with us or simply signing in support of the bill, please fill out this partnerships form." This is followed by a list of potential partner work examples: "Potential examples of partner work include but are not limited to the following: widespread mobilization, media amplification, regular coalition meeting attendance, grassroots resource creation (regarding phone banking, identifying letters/emails of support, submitting public comment) during legislative hearings, educating members on the importance of Ethnic Studies, etc."

Act To Change

Have you been bullied or know someone who has? Been teased for the way you look, what you wear, what you eat, where you're from, how you talk, or other stereotypes? It's not okay. Know that you are not alone and together we can make a difference. Learn about it. Talk about it. Stop it.
